

Blue Sombrero instructions

Parents, Coaches, Volunteers, Players

In an attempt to go green and make lives easier we have set up online registration for our youth recreation programs! I have put together a quick how to guide to help get you started.

Visit

<http://sports.bluesombrero.com/highspringsrec>

Click Register at the top right corner

Parents create an account and register with your name, address, contact information etc. Select the option that best describes you. Once the parent has created their account they can click to add a participant to add their children's information. They can do so for each child. Once each child is entered as a participant the website will display the available programs for each child based on their age and the current time of the year. For example, spring soccer registration will only be available for certain months. Parents will select the desired program and from there they can fill out the registration for that specific sport and season followed with an opportunity to pay online and complete their registration. Once registered for that sport/season they can choose to be notified via email or text message and they will be contacted with team information, practice schedules, practice cancellation, game schedules and any other urgent messages.

Parents can also choose to register online and pay in person at city hall if they are more comfortable with that option. Also we will still continue to distribute fliers for the next few seasons and a parent can fill that flier out and submit it to city hall just as they have in the previous years. We will convert to complete online registration within a few seasons.

If parents have any questions they can contact Robert Basford at rbasford@highsprings.us or they can call the support staff at Blue Sombrero for set up help.
